MEDICAL.
JAPANESE PILE CURE
William P. Draper, Druggist, Springfield, Mass.
The reports are very flattering about the Japanese Pile Cure. The last case, a lady, was cured after suffering for two years and had walked half a mile, now walks any distance and has used only two boxes. A leading physician recommended her to try the Japanese Pile Cure. I have several other cases that I am curing.
We sell the Japanese Pile Cure at 50 cts. and \$1.00 per box. 6 for \$3.00, by mail, with written guarantee to refund the money if not cured. Sample free.
Japanese Pile Ointment 25 cts. per box.

A MODERN SAMSON

And His Remarkable Feats of Strength and Endurance.

IVAN SKOBEL'S EVENTFUL HISTORY.

Has Traveled Extensively—Muscles Like Tempered Steel—Says He Can Overcome the Strength of a Lion. A Man Without a Country Who Believes Himself to Be the Strongest Mortal Living.

New York Sunday Herald.

Strong men of America now have a rival in the person of Ivan Skobel, who is not yet a professional, but who has performed wonderful feats of strength that are almost past believing. This new strong man reached New York five weeks ago, and is now making his temporary home with Mr. M. N. Silverstein, at No. 189 East 114th street. To Mr. Silverstein, who acted as interpreter, I am indebted for the information obtained from his protegee, for though Mr. Skobel can speak German and Russian fluently, and can converse in Turkish, he knows only the English that has been taught to him during the past five weeks.

A MAN WITHOUT A COUNTRY.
Ivan Skobel is veritably a man without a country, and does not even know the nationality of his parents, or their names, or whether they are living or not. He supposes them to have been Russians living in Cairo, Egypt, at the time of his birth, thirty-two years ago. His first recollections are of Cairo, and the first languages he spoke were Russian and Turkish. More than this he knows nothing of his life before seven years of age, at which time he was stolen from his parents, roamed sea and land for twenty-five years, learned a new language and endured hardship that would have killed many men. Fortunately he possesses a vital power and strength of nerves and muscles that have brought him through danger, privation and suffering and placed him among the strong men of the world, and the peer, if not the superior, of them all.

His history can best be given from a translation of his own words.
"I have no recollection of my early youth," he said, "and know not my father and mother are living, though I trust to the Almighty that they are both living and well. I saw them last at seven years of age, when I was stolen from my native city, Cairo. I remember that some one of course I do not remember whom—took me aboard a large ship to see it, and that I played about the deck in high glee. Finally, when I wanted to go home, I found that the ship had sailed and was far out upon the sea.

"It was a German ship, with German sailors, and there I learned that language. I was aboard the ship for six months, and then I was sold to a man named H. A. Yager, who was a sailor, and I became quite happy. I soon found myself a favorite with the crew, being strong and agile, I assisted everywhere, and thus being in daily practice, my whole system, as well as my muscles and sinews, became hardened. As I was used with sailors, little feats of strength and agility were in order during leisure hours, and I soon became an expert in many of them."

"At the age of thirteen I deserted the ship," continued Mr. Skobel, "though I do not remember the port, and could not understand the language of the people there. From that moment my extensive travels began, and it was then that the tests of strength that I was able to perform became of great service to me. My strength grew as my body developed, until now there is scarcely anything that can be done by human strength that I cannot accomplish. A great part of my travelling has been in that part of the globe known to the world as the colonies of criminals in Siberia. It is easy for anyone to imagine that the men living in those parts of Siberia must be very strong, as those whose constitutions are not of the very best die like flies. The men whose daily occupation is hunting or mining jeopardize health, life and limb, and become noted for strength and daring that grows out of sheer despair.
"After deserting, my first visit was to Odessa by way of Bulgaria, doing all of my travelling on foot. My hardships were beyond description. My great strength served me well in enabling me to overcome difficulties and helping to gather a little money by giving roadside exhibitions. I continued my way, riding when it was possible, sailing on ships when I could, and walking most of the time until I reached Uskara."

TREATMENT OF PRISONERS.
Mr. Skobel made a pause, as though thinking, and then continued:
"At Uskara the most of the prisoners are kept. There is scarcely a manner of chaining a human being that is not in use there. Men are chained to the wheelbarrow which they use while at work, and on which they lie to sleep. These chains are never loosened. I lived among them until 1884, when the gold fever broke out in Shottuga, and there I went, because I had learned that the Americans who had been with the Do Long Arctic expedition were there; but I found that the nine who had been saved had been taken to this country two years before.
"I stayed there for a year and endured severe exposures. I then traveled for four months on the Arctic ocean and reached Alaska. I then returned and traveled through all of Eastern Siberia. After journeying for twelve years I crossed the boundaries into Germany and have now come to America.
"My hardships have not been without good results. I have gone hungry for days at a time, and many and many a weary march through the cold countries have I made without shoes on my feet, but as the result of all this I am today not a physical wreck, but the strongest man in the world. My strength is not only apparent, but actual, and the tests that I perform are helped by no trickery, but are performed through sheer power of physique."

HOME OF HIS FEATS.
Skobel handles a cannon ball weighing 150 pounds as a toy. He picks it up from the ground with one hand, raises it above his head and holds it there for five minutes. But his greatest feat is the breaking of chains. Iron bands that would securely hold an ordinary man are by him broken as if they were made of lead. He takes a No. 4 pump chain, capable of sustaining a weight of 3,500 pounds, and with an end in each hand breaks the links across the back of his neck.
With chains nearly five feet apart he places his head on one and his feet on

another, and then with an iron plate weighing 182 pounds on his chest, allows an iron bar three inches wide and half an inch thick to be cut to pieces on it with a chisel struck by a sledge hammer.
Another most wonderful feat is to break a taut ordinary half inch rope with one blow of the naked forefinger of his right hand.
